## 5.05 REFEREE COMMANDS AND DOWNS.

### A. Referee Commands. The Referee shall use the following commands:

1. Fight. The Referee begins or resumes the Match with the command “fight” only once the Athletes are separated an equal distance from the Referee.
2. Break. The command “break” is used by the Referee to interrupt an action of the Athletes and to separate the Athletes after which they must take a step backwards. The Referee steps in between both Athletes. As soon as he steps back the Athletes resume the fight without the instruction “fight.”
3. Stop. The command “stop” is used by the Referee in order to stop the fight, at the end of a Round or prior to a caution or public warning.

### B. Knockdowns “Down”.

1. An Athlete is deemed to be “Down” for purposes of an Eight Count in the following situations:
  - a. According to the Referee’s evaluation, if as the result of a damaging attack, any part of an Athlete’s body (other than their feet) touch the floor or would have touched the floor if not for the ropes or holding the opponent;
  - b. According to the Referee’s evaluation, if as a result of a damaging attack, an Athlete appears to be in a weakened state and may be in danger of injury, but is still standing (known as “Standing Eight Count”).
2. If the Referee determines that an Athlete is Down, then he will indicate this by the Down call and gesture. The Referee starts the Down count after he has sent the opponent to the farthest removed neutral corner. The opponent waits in his neutral corner until the Referee gives him permission to leave this corner and resume the Match. If the opponent leaves his neutral corner before the Referee gives the sign, the counting stops and only starts again once the opponent has returned to his neutral corner. During the Down count it is not permitted for any of the Cornermen to approach their Athletes in any way.
3. The Referee is obliged to continue counting until the eighth count and then assess whether the Athlete is capable of resuming the fight in a responsible manner. If that is the case, the Referee gives the command Fight.
4. If, during the course of the count as described above, the time of the Round ends, the Timekeeper may not sound the gong/bell before the end of the Round but must wait until the Referee has counted to the eighth count and, once the Referee has given the Fight command, the timekeeper must immediately sound the gong/bell signaling the end of the Round.
5. In the case a Referee counts to ten without any interruption (which means he concluded the Athlete is incapable to resume during his count of eight), the Athlete will lose on the grounds of Knockout. In that case, the Timekeeper will sound the gong/bell indicating the end of the Match.

6. In the case a Referee counts to eight and has to check if the Athlete is capable to resume (e.g. checking the Athlete's eyes and balance), and concludes the Athlete is not capable, the Referee follows up with the nine and ten count, and the Athlete will lose the Match on the grounds of a Technical Knockout.
  7. While the Referee is counting, Cornermen may not throw in the towel or indicate in any way that the Match is being given up.
  8. In the exceptional case of both Athletes being knocked Down, the Referee will begin counting for both Athletes at once. After the eighth count, the Referee will assess whether both Athletes are deemed capable of resuming the fight. If, in the opinion of the Referee, this is the case, then the Match can be resumed. If one of the two Athletes is still deemed incapable of resuming the Match after the eighth count, but his opponent is deemed capable, then the latter wins by Technical Knockout. If neither Athlete is capable of resuming the fight at the eighth count, then the Referee will complete the count to ten and if neither Athlete can resume then the Match will be declared a Draw.
- C. Referee Review. In the event that a Referee needs a second opinion or that the Judge Supervisor requests a review a Referee's decision, there shall be a formal consultation and review as soon as possible during the Match. A Referee's call may be overturned by the Judge Supervisor or a Referee may change his call after consultation with the Judge Supervisor.

#### 5.06 MATCH SCORING.

- A. Legitimate Techniques for Scoring. In order for a strike to be counted in scoring, the technique must be executed with full power, from the correct distance and body position, and land on legal target area.
1. Punches. Striking with the padded part of the glove to a legal target: i.e. straight punches, hooks, uppercuts, spinning back-fist (only if executed with the padded, back of the glove);
  2. Kicks. Striking with the foot or lower leg to a legal target: i.e. front kicks, low kicks inside and outside the leg, middle kicks, high kicks, sidekicks, back kicks, ax kicks, spinning kicks, jumping kicks;
  3. Knees. Striking with the knee to a legal target: i.e. front knee, round-house knee, jumping knee, knee on the leg inside and outside (please note the clinch limitations explained below regarding the use of knee strikes).
- B. Open Scoring. GLORY utilizes open scoring which means that the Judges scores will be publicly available after the conclusion of each Round.
- C. Criteria for Scoring. Five Judges (or three if approved by GLORY) will evaluate the relative effectiveness of each Athlete performance according to the following prioritized criteria:
1. Knockdowns. If an Athlete scores one or more Knockdowns, he will win the Round (unless he receives point deductions). The other criteria will be evaluated to determine whether the score is 10-9 or 10-8 in favor of the winner.

2. Damage inflicted on the opponent. High Impact Damage (wobble, staggering, or reduced functionality as a result of a legal strike) is prioritized over all other damage. Damage is scored cumulatively.
  3. Number of clean strikes. Spectacular techniques (flying and spinning techniques, etc.) are prioritized over normal techniques.
  4. Degree of aggressiveness or Ring domination. Attacks are prioritized over defense for scoring purposes.
- D. Examples of Scores Awarded. GLORY utilizes a “10-point must” system meaning one Athlete must always receive a 10 score (unless they receive a points deduction). The minus points accrued from penalization are first deducted from the points scored before the score is finalized.
1. 10-10: Not even a marginal advantage can be determined according to the established criteria;
  2. 10-9: One Athlete has demonstrated an advantage according to the established criteria;
  3. 10-8: One Athlete has won by way of a knockdown or by way of High Intensity Damage, and significant domination/advantage of strikes and aggressiveness;
  4. 10-7: One Athlete has won by way of two knockdowns.

Refer to Appendix 2 for Scoring Guidelines

E. Match Decisions. A Match can be decided in the following manners:

1. Points Decision. Five Judges (or three, if approved by GLORY) will evaluate the relative effectiveness of each Athlete’s performance using a “10-Point-Must” system, deduct any minus points, and record their scores for the Athletes after each Round. After the completion of the scheduled Rounds the winner is determined by the total scores according to each Judge (not by Round) and the victory is awarded by the unanimous or majority decision of the Judge panel. Refer to Appendix 2 for Scoring Guidelines.
2. Knockout (“KO”). If an Athlete is struck in such a way that he or she is incapable of resuming the Match within the Referee’s ten-count or if the Referee declares the knockout before the count to ten in order to bring in immediate medical assistance.
3. Technical Knockout (“TKO”). A TKO occurs in one of the following instances:
  - a. If the Referee (or Ring Doctor) ends the Match on the grounds of one Athlete’s inability to continue or because the Athlete cannot safely continue for any reason (other than due to a Foul).
    1. In the event the Referee wishes to consult the Ring Doctor on an injury sustained by one of the Athletes, he will stop the Match and direct the uninjured Athlete to a neutral corner. He will then request the Ring Doctor to enter the Ring in order to examine the injury. Cornermen must not

enter the Ring. The Ring Doctor will advise the Referee whether or not to continue the Match.

2. The Ring Doctor also has the authority to stop the Match without the Referee soliciting his advice. The Ring Doctor's decision which is final and binding and not appealable.
  - b. If an Athlete or his Cornermen gives up by "Throwing in the Towel" or not resuming when a Round begins.
  - c. In a single Match or a Tournament final Match an Athlete has been knocked down three times in the same Round or a total of four times in the same Match. In a Tournament Match including the reserve Matches an Athlete has been knocked down twice in one and the same Round or three times in the same Match.
4. Disqualification ("DQ"). If the Referee ends a Match because an Athlete is disqualified based on the criteria as described below in Section 5.08.
5. Draw. When no winner is announced at the conclusion of the Match, essentially a "tie". This occurs in the following situations:
  - a. If both Athletes go Down at the same time and neither can resume the Match within the Referee's ten count.
  - b. A Draw occurs in scoring if there is a tied score and when a majority of the Judges do not declare a winner. Thus, this occurs in any scoring situation where at least three of the five Judges (or two of the three Judges) do not declare one Athlete the winner. Refer to Appendix 2 for Scoring Guidelines.
    1. In a three Round Match, if the score is considered a Draw after the conclusion of the three Rounds, the Match is extended by one "Sudden Victory" Round. Only the score from the extra Round is used to determine the winner. Judges may not score the extra Round equally. If for any reason the scoring from the extra Round does not result in a decision outcome, and the points are equal, then the Judges will determine who has earned the victory by merit of the Match in its entirety.
    2. In the event of a title Match between a defending champion and a challenger, if the score is considered a Draw after the conclusion of the five Rounds, the result of the Match is a Draw and the defending champion remains the champion.
    3. In the event of a title Match involving a vacant title, or in the event of a five Round Main Event or officially designated Title Eliminator, if the score is considered a Draw after the conclusion of the five Rounds, the Match is extended by one "Sudden Victory" Round. Only the score from the extra Round is used to determine the winner. Judges may not score the extra Round equally. If for any reason the scoring from the extra Round does not result in a decision outcome, and the points are equal, the Judges will determine who has earned the victory by merit of the Match in its entirety.

4. In a Tournament, the Final Match (see definition in Appendix 4) may be extended by up to two “Sudden Victory” Rounds. Only the score from the extra Round(s) is used to determine the winner. Judges may not score the extra Round(s) equally. If for any reason the scoring from the extra Round does not result in a decision outcome, and the points are equal, the Judges will determine who has earned the victory by merit of the Match in its entirety. Refer to Appendix 4 for additional details.
6. No Contest. A single Match will result in a No Contest if less than two Rounds (in a three Round Match) or three Rounds (in a five Round Match) have been completed and an Athlete cannot continue as the result of an accidental Foul or defect in protective gear. In the event of an accidental Foul that stops the Match in the third Round (in a three Round Match) or fourth or fifth Round (of a five Round Match), the outcome of the match will be determined by the Judge’s scores without scoring the Round in which the accidental Foul occurred.

A No Contest also occurs if the Referee decides in their absolute discretion that both Athletes must be disqualified, including but not limited to, if:

- a. The Match between the two participants have disregarded the Rule and regulations with equal fault.
- b. If there is a situation outside the Ring that would put the Athletes, GLORY personnel, the audience or anybody else at risk by letting the Match continue.
- c. If a Match must be terminated prematurely for any reason impacting the Athlete’s safety.

**A. The following are consequences that will be issued by the Referee for Match Fouls:**

1. Caution. A Caution is given in the event of a minor, accidental or unintentional Foul. It may occur without stopping the action of the Match.
  2. Official Warning. In the event of repetition, more significant, or intentional violation, the Referee will issue an Official Warning. The Referee will stop the action, send the opponent to the farthest neutral corner, and indicate to the Athlete and to the Judge using a clear gesture as determined by the Regulator (e.g. right arm up and pointer finger extended) that that the Athlete has been warned for their Foul.
  3. Penalty. If the Foul is intentional and severe, or if the Athlete has received an Official Warning, the Referee shall assess a penalty point for any subsequent Fouls. The Referee will stop the action, send the opponent to the farthest neutral corner, and indicate to the Athlete and to the Judges the Foul, the penalty and the point(s) deduction using a clear gesture as determined by the Regulator (e.g. right arm raised and swinging downward in a counterclockwise motion until it is facing downward).
  4. Disqualification. If the Foul is intentional, flagrant, and/or severe, or if the Athlete has received two Penalty point deductions and commits any other Foul, the Referee shall disqualify the Athlete. A Referee may also disqualify the Athlete if or if security must enter the Ring due to safety issues caused by one of the Athletes, a Cornerman enters the Ring during the Match or touches an Athlete during the Match, other than during an Interval.
- B. The Referee has the sole discretion to issue Cautions, Warnings, Penalties or Disqualification for Fouls which factor in the nature, severity and repetition of the fouling behavior. In doing so, the Referee must have thoroughly considered whether the Athlete has, through his violation, damaged his opponent's chances of victory and if the violation was intentional.
- C. GLORY might take disciplinary action for Match Consequences. Discipline for Athletes may include a public warning, suspension or ban from participating in GLORY Events, disqualification or overturn of results, contractual penalties, termination of contract, fines up to 100% of a fight purse, and conditions to be satisfied. Discipline for Cornermen may include a public warning, suspension or ban from participating or attending GLORY Events, deduction from the Athlete's purse, and conditions to be satisfied.

## 5.09 RANKINGS.

## APPENDIX 2

### GLORY SCORING GUIDELINES

A. Criteria for Scoring. Section 5.06.C. The Judges will evaluate the relative effectiveness of each Athlete's performance according to the following prioritized criteria:

1. Knockdowns. If an Athlete scores one or more knockdowns, he will win the Round (unless he receives point deductions). The other criteria will be evaluated to determine whether the score is 10-9 or 10-8 in favor of the winner.
2. Damage inflicted on the opponent. High Impact Damage (wobble, staggering, or reduced functionality as a result of a legal strike) is prioritized over all other damage. Damage is scored cumulatively.
3. Number of clean strikes. Spectacular techniques (flying and spinning techniques, etc.) are prioritized over normal techniques.
4. Degree of aggressiveness or Ring domination. Attacks are prioritized over defense for scoring purposes.

As the criteria demonstrates, GLORY prioritizes damaging attacks and action. If one strike visibly inflicts High Impact Damage, it outweighs a high volume of clean but ineffective strikes. It should be noted, though, that volume can cumulatively result in High Impact Damage which will have the same impact on scoring. Similarly, if an Athlete lands a single damaging strike but fails to follow up or remains passive for the remainder of the Round, he will be penalized in scoring.

Although the scoring criteria are prioritized, each Round should be scored utilizing all criteria. For instance, if Athlete A scores a knockdown, the evaluation does not end there. The other criteria are evaluated to determine the difference between a 10-9 and 10-8 Round.

B. Examples of Scores. Section 5.06.D.

1. 10-10: Not even a marginal advantage can be determined according to the established criteria;
2. 10-9: One Athlete has demonstrated an advantage according to the established criteria;
3. 10-8: One Athlete has won by way of a knockdown or by way of a High Intensity Damage, and significant domination/advantage of strikes and aggressiveness;
4. 10-7: One Athlete has won by way of two knockdowns.

Each Round must have a winner who is awarded a 10 score and the loser 9, unless the Round is scored a draw. 10-9 is the standard outcome of a Round with no knockdowns or penalties. It indicates that one Athlete demonstrated an advantage according to the scoring criteria. If an Athlete would have won the Round 10-9 but receives a minus point, the score becomes 9-9.

Because Judges calculate scores based on some criteria that are subjective, there will always be some room for interpretation, especially in close Rounds. This is why there are three or five Judges in each Match. Although all examples of scoring scenarios cannot be provided, below are some common examples:

- If Athlete A wins the Round and scores a knockdown, the score will be 10-8 in Athlete A's favor. However, scoring 10-9, although very rare, is possible even if there is a knockdown if Athlete B had significant/dominant performance throughout the Round based on other

scoring criteria (overall damage and strikes). A 10-10 is possible if Athlete B otherwise wins the Round by domination, but it is extremely rare and unlikely.

- If Athlete A knocks down Athlete B two times in a Round, the score will be 10-7 in Athlete A's favor, unless other factors weigh heavily in the favor of Athlete B, in which case it could be a 10-8 score.
- If both Athletes score a knockdown and there are no significant other differences, the score would be 10-10; although this is very rare as it means there are no differences in damage, strikes, and aggressiveness.
- If both Athletes score a knockdown and Athlete B wins the Round based on the other criteria, the score would be 9-10 in favor of Athlete B.
- If there are no knockdowns, Athlete B lands more strikes, but Athlete A inflicted High Intensity Damage, the score would be 10-9 in favor of Athlete A since damage is weighted higher than clean strikes. If Athlete A inflicts High Impact Damage and is also significantly more dominant in number of strikes and aggressiveness, the score would be 10-8 in favor of Athlete A.
- If there are no knockdowns, no clear difference in damage, and no marginal difference in clean strikes, but Athlete A is more aggressive, the score would be 10-9 in favor of Athlete A.
- If there are no knockdowns, no difference in damage, but Athlete A has 12 clean strikes with normal techniques and Athlete B has 6 clean strikes with spectacular strikes, the score would be 9-10 in favor of Athlete B because spectacular techniques are weighted higher than normal techniques. However, if the number of normal strikes by Athlete B is so lopsided to spectacular strikes, it is likely that Athlete B has inflicted more damage and been more aggressive and will therefore be the winner 9-10.

#### C. Tallying of Scores. Section 5.06.E.1.

The below example demonstrates that a Match winner is determined by the total scores of each Judge, not by winner according to each Round. Therefore, it is possible that the winner received less overall points than the loser or . In the below example, three Judges (Judges 1, 2, 3) determined that the White corner won, while only two Judges (Judges 4 and 5) determined that the Black corner won. However, if you were to tally all of the points an 237:238. Further, Black won more Rounds (2, 3, and 4) while White only won (1 and 5).

Match Results Grid						
	Judge 1	Judge 2	Judge 3	Judge 4	Judge 5	
Round 1	10:9	10:9	10:9	10:9	9:10	4:1
Round 2	10:9	9:10	9:10	9:10	9:10	1:4
Round 3	9:10	10:9	9:10	9:10	9:10	1:4
Round 4	9:10	10:9	10:9	9:10	9:10	2:3
Round 5	10:9	9:10	10:9	10:9	10:9	4:1
<b>Total</b>	<b>48:47</b>	<b>48:47</b>	<b>48:47</b>	<b>47:48</b>	<b>46:49</b>	<b>3:2</b>
Result: White split decision						

D. Draw Examples. Section 5.06.C.5

Match Results Grid						
Judge 1	Judge 2	Judge 3	Judge 4	Judge 5	Score	Result
White	White	White	White	White	5-0	Unanimous Decision
White	White	White	White	Black	4-1	Split Decision
White	White	White	Black	Black	3-2	Split Decision
White	White	White	Black	Even	3-1-1	Majority Decision
White	White	White	Even	Even	3-0-2	Majority Decision
White	White	Black	Black	Even	2-2-1	Draw
White	White	Black	Even	Even	2-1-2	Draw
White	White	Even	Even	Even	2-0-3	Draw
White	Black	Even	Even	Even	1-1-3	Draw
White	Even	Even	Even	Even	1-0-4	Draw
Even	Even	Even	Even	Even	0-0-5	Draw

- Whenever three (3) or more Judges agree on a winner, that Athlete is awarded the decision victory because the majority of the Judges (at least 3 out of 5) have favored them in the scoring.
- Whenever less than three (3) Judges agree on the winner, the Match will be scored a Draw.

## **APPENDIX 4**

### **GLORY TOURNAMENT RULES**

Effective: 1 January 2026

#### **A. Application.**

The GLORY Rules apply to all GLORY's Tournaments and Athletes participating in Tournaments. These Tournament Rules are meant to address unique situations in Tournaments. Unless otherwise established by a specific Tournament Ruleset, the following shall apply to all GLORY's Tournaments, including the GLORY Grand Prix.

#### **B. Selection.**

Athletes will be assigned for placement in the Tournament at GLORY's discretion based on the following non-exhaustive factors: Champion status, rankings, Wildcard(s) and qualification Matches. Match-ups will be determined by GLORY at its sole discretion.

#### **C. Match Duration and Draws.**

Standard Matches will be three Rounds of three minutes each with a one minute break in between each Round, unless extended due to a Draw score pursuant to GLORY Rule 5.06.E. An Athlete may not fight more than thirteen three-minute Rounds in one day.

The Final Match is considered the Match that determines the winner of the entire Tournament or prize money winner, not necessarily the last Match of a particular Event. By way of example, a Tournament may take place over the course of several Events throughout the year. Only the last Match of the entire Tournament is considered the "Final Match".

#### **D. Tournament Title Match.**

GLORY may designate that a Tournament shall determine the champion of the weight class. In such cases, a Final Match may be three or five Rounds at GLORY's discretion.

#### **E. Tournament Knockdown Rules.**

As per Section 5.06 of the GLORY Rules, a TKO will be declared in a Tournament Match including the reserve Matches if an Athlete has been knocked down twice in one and the same Round or three times in the same Match. In a Tournament final Match, a TKO will be declared if an Athlete has been knocked down three times in the same Round or a total of four times in the same Match.

#### **F. Reserve Matches and Athletes.**

Reserve matches may be added to ensure there are sufficient competitors in the event of injury or an Athlete's inability to continue for any reason. Alternatively, GLORY may select reserve Athlete(s) instead of a reserve match.

Subject to GLORY's discretion, the replacement order shall be: (1) the Athlete's original opponent (unless not fit to fight); (2) the first reserve match winner; (3) the second reserve match winner; (4) the first reserve match loser; and (5) the second reserve match loser.

#### G. Injuries and Accidental Fouls.

If a Tournament Match other than the final Match ends due to an accidental foul, the Athlete who is in condition to continue will advance unless the Referee has good reason to disqualify him. If a Tournament Final Match ends due to an accidental foul, the Referee may assess a penalty point, the partial Round is scored by the Judges and the scorecards are finalized for a technical decision (regardless of the Round). If the injury from the accidental foul is not severe enough to stop the Match but then later is further aggravated by legal techniques enough to warrant an end to the Match, the partial Round is scored and the scorecards are finalized for the technical decision (regardless of the Round).
